

AMENDMENT #2
October 27, 2016
Invitation for Bids (IFB)
No. GC-16-WCW3-01, Dated 10-04-16

Issued by
Gillespie County Water Control and
Improvement District No. 1
Fredericksburg, Texas

The above numbered IFB hereby is amended as set forth below. The hour and date specified for receipt of offers is not changed.

PURPOSE OF AMENDMENT

- 1. To transmit the County specifications for cattle guard frames and cattle guards.
- 2. To remind bidders that oral explanations or instructions given before the award of the contract will not be binding. See PART I, Subpart B, Instructions to Bidders, Section 6.

Offerors **must acknowledge receipt of this Amendment no later than** the hour and date specified in the IFB for receipt of sealed bids by one of the following methods:

- (a) Make appropriate notations on Exhibit A, Offer form (PART I, Subpart C, page GP-9).
- (b) Complete and return form below. Form must be mailed or hand-carried to the address designated for receipt of bids, and be made to the attention of Steven Ging, Contracting Officer, clearly noting "Acknowledgment of Receipt of Amendment No. 2, IFB No. GC-16-WCW3-01" on the envelope. Fax, electronic, or telegraphic acknowledgments of receipt are not allowed.

ACKNOWLEDGMENT OF RECEIPT

Amendment No. 2 (10-27-16)
IFB No. GC-16-WCW3-01 – Williams Creek Watershed FRS Site 3 Rehabilitation

Bidder's Signature: _____

Bidder's Name: _____

Bidder's Title: _____

Date Signed: _____

Company Name: _____

REFERENCE: Part IV, Construction Specification 8, Section 4.a.(4) – paragraph added by IFB Amendment #1, 10/24/16.

Attached please find the new County cattle guard frames and cattle guards specifications.

New Cattle Guard Frames and Cattle Guards,

New cattle guard frame should be at least 20 ft. X 6 ft. The frame height should be 1 ft. or 2 ft., depending on road conditions. The cattle guard itself should fit inside frame and be removable, for cleaning and repair in the future.

Replacement Cattle guard Frames and Cattle guards,

Replacement cattle guard frame length should be at least 2 ft. wider than existing road width. It should be wide enough to sit on top of existing cement frame, depending on condition of old cement frame at time of replacement. The frame height should be 1 ft.

The cattle guard itself should fit inside frame and be removable, for cleaning and repair in the future.
